Turning Concern into Action

Dear Friend,

In September 2025, Pier Giorgio Frassati, a proud SVP member, was officially declared a Saint – and his story became more inspiring than ever. We are excited to share these free resources– celebrating his adventurous faith– to encourage reflection and inspire action. More are available online, so please look and share them with others. The SVP is a nationwide front-line charity, dedicated to tackling poverty and supporting individuals and families facing loneliness, hardship, and the many challenges that life can bring. We engage with children and young people through our Young Vincentian programmes, to inspire them to help others and grow in faith and charity. This includes:

- Mini Vinnies (primary schools) and Youth SVP (secondary schools)– groups schools can form using our dedicated resources. These groups foster a sense of belonging and inspire young people to commit to helping others . If you're interested in having a group, please email youngvincentians@svp.org.uk.
- Free resources for all schools that support the curriculum and Catholic life of the school.
- Support for young people and their families.

Find out more at www.svp.org.uk/involve-young-people. Thanks to the generosity of our donors, we can offer these resources free of charge. We invite you to consider hosting a fundraiser or making a donation to help the SVP continue its vital work supporting those most in need in our communities. Inspire your children and young people to look up with hope, reach out, and climb higher in their faith and service:

Help your children and young people to look up, reach out, and climb higher in their faith and service:

- **Scale the heights of love** – through prayer and reflection
- **Build bridges across valleys** – connect with the SVP's work supporting those who feel excluded or overlooked.
- **Raise their voices from the mountaintop** – speak out for justice on behalf of those enduring hardship and poverty.
- **Clear the path to opportunity** – take meaningful action to make change in their communities.
- **Lift their gaze to the summit** – increase awareness of how their choices and actions affect others along the way.

With prayers for you, your staff, and your students,

The SVP Young Vincentians Team
